OBJECTIVE

Motivated **B.Sc. Computer Science** student with strong foundation in programming, data structures, and databases. Passionate about learning, teamwork, and using my skills to contribute effectively.

EDUCATION

Bachelor of Science in Computer Science, Calicut University

College of Applied Science (IHRD), (August 2023- May 2026)

Chelakkara, Thrissur

Higher Secondary Education

(Kerala State Board)

Govt Boys Higher Secondary school, (2021 – 2023)

Wadakkanchery, Thrissur

PROJECTS

MediCare-AI Breast Cancer Detection and Prediction

- The system is doctor-centric and supports fast, accurate breast cancer diagnosis.
- Uses a hybrid AI model: CNN for image feature extraction and ELM for tumor classification and risk prediction.
- Doctors can upload scan reports, view AI results, manage appointments, and track patient history through a single dashboard.
- Provides end-to-end assistance with real-time classification, future cancer risk estimation, and continuous model updates
- Improves diagnostic accuracy, reduces manual workload, and strengthens clinical decision-making for breast cancer management.

SKILLS

Programming : C , Java , Python

Web Technologies :HTML , CSS ,

JavaScript , Bootstrap ,Tailwind

Database : MySQL

Tools : VS Code, Word

Concepts : Data Structures &

Algorithms (DSA), Object-Oriented

Programming (OOP) , SDLC

CERTIFICATES

•Artificial Intelligence Chatbot

Development Workshop – Career Route

Academy (November 2024)

• 60-Hour Data Analytics Course (Addon
Program) – Completed in April 2026

SOFT SKILLS

Problem solving

Analytical thinking

Teamwork and collaboration

Adaptability and continuous
learning

Consectetuer
